

Scanco Dashboard

See where your inventory is in real-time

Retain a high-level view of your warehouse operation like never before. Scanco's configurable dashboard allows you to extract data that suits your business requirements and filters content to pull just the data you need.

Scanco Dashboard gives you the data you need to succeed!

Manage your Sage 100 warehouse the new way. With the old wave method, you had predictable spikes and dips in productivity based on what stage of the batch each member of your team had completed. In the e-commerce era, that doesn't work anymore.

Flexibility & Productivity

- Real-Time Status
- Flexible Assignments
- Live Insight
- Full Customization
- Chat

With Scanco Dashboard, it's easy to get orders picked, packed, and out the door. Why? Because you're always maintaining productivity levels. With high flexibility and unprecedented insight, you can ensure your orders get fulfilled faster than ever.
